### **Notes to the Condensed Financial Statements** **for the Period 1 October 2023 to 31 March 2024** **(Unaudited)**

#### **1. STATUTORY INFORMATION**

Alteration Earth Plc (the 'Company') was incorporated on 18 August 2021 in England and Wales, with registered number 13571750 under Companies Act 2006. The registered office of the company is c/o Keystone Law, 48 Chancery Lane, London, WC2A 1JF. The Company is a public limited company and was admitted to the Standard Listing Segment of the London Stock Exchange on 1 July 2022. The principal activity of the Company is to undertake an acquisition of a controlling interest in a company or business in the Clean, Green, Renewable Energy (CGRE) sector.

#### **2. ACCOUNTING POLICIES**

##### **Basis of preparation**

These financial statements have been prepared in accordance with UK-adopted international accounting standards and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention.

The principal accounting policies are set out below and have, unless otherwise stated, been applied consistently for all periods presented in these Financial Statements. The Financial Statements are prepared in pounds Sterling and presented to the nearest pound.

##### **Going concern**

The financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future.

The Company has no revenue but has cash resources to finance activities whilst it identifies and completes suitable transaction opportunities. When a suitable transaction is identified, the Directors will consider the need for further funding to complete the transaction.

Having considered forecasts, the Directors consider that the Company has sufficient funds available to continue in operational existence for at least 12 months from the date of approval of these accounts. Accordingly, the Board believes it appropriate to adopt the going concern basis in the approval of the financial statements.

##### **Accounting standards**

There are no new standards, amendments and interpretations adopted by the Company.

### Notes to the Condensed Financial Statements - continued for the Period 1 October 2023 to 31 March 2024 (Unaudited)

#### 2. ACCOUNTING POLICIES - continued

##### **New standards and interpretations not yet adopted**

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022 and have not been applied in preparing these financial statements. None of these are expected to have a significant effect on the financial statements of the Company.

<b>Accounting Standards</b>		<b>Effective period commencing on or after</b>
<b>Amendments to existing standards</b>		
Annual Improvements	IFRS 1, IFRS 9, IFRS 16 and IAS 41 (Amendments) Annual Improvements to IFRS standards 2018-2020	1 Jan 2022

### **Notes to the Condensed Financial Statements - continued** **for the Period 1 October 2023 to 31 March 2024** **(Unaudited)**

#### **2. ACCOUNTING POLICIES - continued**

##### **Critical accounting judgements and key sources of estimation uncertainty**

In the process of applying the entity's accounting policies, management makes estimates and assumptions that have an effect on the amounts recognised in the financial information. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates. Apart from share based payments and share issue costs discussed below the Directors consider that there are no other critical accounting judgements or key sources of estimation uncertainty relating to the financial information of the Company.

##### **Cash and cash equivalents**

Cash represents cash in hand and deposits held on demand with financial institutions. Cash equivalents are short-term, highly-liquid investments with original maturities of three months or less (as at their date of acquisition). Cash equivalents are readily convertible to known amounts of cash and subject to an insignificant risk of change in that cash value.

In the presentation of the Statement of Cash Flows, cash and cash equivalents also include bank overdrafts. Any such overdrafts are shown within borrowings under 'current liabilities' on the Statement of Financial Position.

##### **Financial instruments recognition**

A financial asset or financial liability is recognised in the statement of financial position of the Company when it arises or when the Company becomes part of the contractual terms of the financial instrument.

##### **Classification**

##### **Financial assets at amortised cost**

The Company measures financial assets at amortised cost if both of the following conditions are met:

- (1) the asset is held within a business model whose objective is to collect contractual cashflows; and
- (2) the contractual terms of the financial asset generating cash flows at specified dates only pertain to capital and interest payments on the balance of the initial capital.

Financial assets which are measured at amortised cost, are measured using the Effective Interest Rate Method (EIR) and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

##### **Financial liabilities at amortised cost**

Financial liabilities measured at amortised cost using the effective interest rate method include current borrowings and trade and other payables that are short term in nature. Financial liabilities are derecognised if the Company's obligations specified in the contract expire or are discharged or cancelled.

## **Alteration Earth PLC**

### **Notes to the Condensed Financial Statements - continued** **for the Period 1 October 2023 to 31 March 2024** **(Unaudited)**

#### **2. ACCOUNTING POLICIES - continued**

##### **Financial liabilities at amortised cost - continued**

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate ("EIR"). The EIR amortisation is included as finance costs in profit or loss. Trade payables other payables are non-interest bearing and are stated at amortised cost using the effective interest method.

##### **Derecognition**

A financial asset is derecognised when:

(1) the rights to receive cash flows from the asset have expired, or

(2) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

##### **Impairment**

The Company recognises a provision for impairment for expected credit losses regarding all financial assets. Expected credit losses are based on the balance between all the payable contractual cash flows and all discounted cash flows that the Company expects to receive. Regarding trade receivables, the Company applies the IFRS 9 simplified approach in order to calculate expected credit losses. Therefore, at every reporting date, provision for losses regarding a financial instrument is measured at an amount equal to the expected credit losses over its lifetime without monitoring changes in credit risk. To measure expected credit losses, trade receivables and contract assets have been grouped based on shared risk characteristics.

##### **Taxation**

Tax currently payable is based on taxable profit for the period. Taxable profit differs from profit as reported in the income statement because it excludes items of income and expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

## **Alteration Earth PLC**

### **Notes to the Condensed Financial Statements - continued** **for the Period 1 October 2023 to 31 March 2024** **(Unaudited)**

#### **2. ACCOUNTING POLICIES - continued**

##### **Taxation - continued**

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled, or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

##### **Foreign currency translation**

The financial information is presented in Sterling which is the Company's functional and presentational currency.

Transactions in currencies other than the functional currency are recognised at the rates of exchange on the dates of the transactions. At each balance sheet date, monetary assets and liabilities are retranslated at the rates prevailing at the balance sheet date with differences recognised in the Statement of comprehensive income in the period in which they arise.

##### **Equity**

Share capital is determined using the nominal value of shares that have been issued.

The Share premium account includes any premiums received on the initial issuing of the share capital. Any transaction costs associated with the issuing of shares are deducted from the Share premium account, net of any related income tax benefits.

Equity-settled share-based payments are credited to a share-based payment reserve as a component of equity until related options or warrants are exercised or lapse.

Accumulated losses include all current and prior period results as disclosed in the income statement.

##### **Share Based Payments**

Equity-settled share-based payments are measured at fair value (excluding the effect of non-market based vesting conditions) at date of grant. The fair value so determined is expensed on a straight-line basis over the vesting period, based on the Company's estimate of the number of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions. Fair value is measured using the Black Scholes pricing model. The key assumption used in the model have been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

## **Alteration Earth PLC**

### **Notes to the Condensed Financial Statements - continued** **for the Period 1 October 2023 to 31 March 2024** **(Unaudited)**

#### **2. ACCOUNTING POLICIES - continued**

##### **Share based payments: share warrants**

The Company issued warrants to the lead investor and two directors on 1 July 2022. Equity-settled share-based payments are measured at fair value (excluding the effect of non-market based vesting conditions) at date of grant. The fair value so determined is expensed on a straight-line basis over the vesting period, based on the Company's estimate of the number of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions. Fair value is measured using the Black Scholes pricing model. The key assumption used in the model have been adjusted, based on management's best estimate of the vesting period and volatility.

##### **Share Issue costs**

The costs of share issues are charged against the share premium account. Where the share issue costs are incurred concurrently with another activity such as a stock market admission and/or an issue of a prospectus or admission document then the costs of these activities can be difficult to quantify separately and therefore reliance is placed on management's best estimate of the split of the costs.

##### **Loss per share**

Basic loss per share is calculated as the profit or loss attributable to equity holders of the Company for the period, adjusted to exclude any costs of servicing equity (other than dividends), divided by the weighted average number of ordinary shares.

Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

##### **Segmental reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker.

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board as a whole.

Identifying and assessing investment projects is the only activity the Company is involved in and is therefore considered as the only operating/reporting segment. Therefore, the financial information of the single segment is the same as set out in the statement of comprehensive income and statement of financial position.

##### **Analysis of tax expense**

No liability to UK corporation tax arose for the period 1 October 2023 to 31 March 2024 nor for the period 1 October 2022 to 31 March 2023.

A reconciliation of the tax charge / credit appearing in the income statement to the tax that would result from applying the standard rate of tax to the results for the period is:

	<b>1 October 2023 to 31 March 2024 £</b>	<b>1 October 2022 to 31 March 2023 £</b>
Loss for the period	(151,301)	(129,646)

Effect of tax losses available for carry forward against future profits	34,075	21,783

## Alteration Earth PLC

### Notes to the Condensed Financial Statements - continued for the Period 1 October 2023 to 31 March 2024 (Unaudited)

#### 5. INCOME TAX - CONTINUED

##### Analysis of tax expense - continued

The Company's unutilised tax losses carried forward at 31 March 2024 amounted to £452,826 (at 31 March 2023: £187,456). A deferred tax asset has not been recognised due to uncertainty over the timing of the utilisation of the losses.

##### Effective corporate tax rate

The standard rate of corporation tax in the UK from 1 April 2023 is 25%, prior to which the rate was 19%. Accordingly, the Company's effective rate of corporation tax for the period 1 October 2023 to 31 March 2024 was 25% (1 October 2022 to March 2023: 19%).

#### 6. EARNINGS PER SHARE

Basic EPS is calculated by dividing the earnings attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

Reconciliations are set out below.

	<b>Earnings £</b>	<b>Weighted average number of shares</b>	<b>Per-share amount pence</b>
<b>Basic and Diluted EPS</b>			
Earnings attributable to ordinary shareholders:			
1 October 2023 to 31 March 2024	(151,301)	18,000,000	(0.84)
1 October 2022 to 31 March 2023	(129,646)	18,000,000	(0.72)

Diluted EPS are not separately calculated as the warrants would be anti-dilutive due to the loss, the weighted average number of shares including the dilution shares is 20,700,000.

#### **12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT - CONTINUED**

##### **Capital management**

The Company considers its capital to be equal to the sum of its total equity. The Company monitors its capital using a number of key performance indicators including cash flow projections, working capital ratios, the cost to achieve development milestones and potential revenue from partnerships and ongoing licensing activities.

The Company's objective when managing its capital is to ensure it obtains sufficient funding for continuing as a going concern. The Company funds its capital requirements through the issue of new shares to investors.

##### **Interest rate risk**

The nature of the Company's activities and the basis of funding are such that the Company will have significant liquid resources. The Company will use these resources to meet the cost of operations.

The Company is not financially dependent on the income earned on these resources and therefore the risk of interest rate fluctuations is not significant to the business and the Directors have not performed a detailed sensitivity analysis.

##### **Liquidity risk**

The Company's liquid resources are invested having regard to the timing of payment to be made in the ordinary course of the Company's activities. All financial liabilities are payable in the short term (between 0 to 3 months) and the Company maintains adequate bank balances to meet those liabilities. The directors have considered the Company's cash flows for a period of 12 months from the date of approval of these financial statements and do not consider that the Company is subject to any significant liquidity risk.

##### **Currency risk**

The Company operates in a global market with income and costs possibly arising in a number of currencies. The majority of the operating costs are incurred in GBP (£). The Company does not hedge potential future income or costs, since the existence, quantum and timing of such transactions cannot be accurately predicted. The Company did not have foreign currency exposure at period end.

#### **13. CONTINGENT LIABILITIES**

There were no contingent liabilities at either 31 March 2024 or 30 September 2023.

#### **14. CAPITAL COMMITMENTS**

There were no capital commitments at either 31 March 2024 or 30 September 2023.
